Covered by most insurances, individuals may
have a co-pay

Recovery coaches

- meet individuals in Emergency Departments for overdose and substance use-related reasons to offer support
- educate individuals and their families about available recovery support services
- provide referrals and also connect individuals to diverse community resources that can assist in their recovery
- assist individuals to create a recovery wellness plan
- provide individuals and their families with overdose prevention education and information on obtaining and using the overdose-reversing drug Naloxone (Narcan)
- follow-up with individuals and offer additional resources for ongoing support within 24-hours

For information on the ARCH program and/or recovery services, please call 508-742-4400, ext. 6160 or ext. 6109
